PROFILE DETAILS / Note: drawings are not to scale

T & G: MICRO-BEVEL  
Standard on most engineered products,  
recommended for prefinished items

DESCRIPTION

Reclaimed Solid or Engineered pre-finished Flooring + Interior Cladding.

MILLWORK

Surfaced 4 sides with wire-brushed face. Tongue & Groove with Micro-Bevel. Back-Relieved and End-Matched.

DIMENSIONS

SOLID: 3/4" thick x (selected width) x 2'-10' solid random lengths.

ENGINEERED: 5/8" thick x (selected width) x 2'-10' solid random lengths. Wear layer 5/32" (4mm) thick over a 1/2" (12mm) thick FSC certified 9-ply birch new wood substrate.

SPECIES

*Quercus alba*

HARDNESS

White Oak Janka rating 1360. Suitable for high-traffic indoor environments. Commercial finish.

SUSTAINABILITY

Wood from sustainably managed forests in the eastern United States. FSC certified mix credit available upon request. May qualify for LEED v4.1 Building Product Disclosure and Optimization - Sourcing of Raw Materials and Building Life Cycle Impact Reduction, Low-Emitting Materials and/or Regional Priority credits.

LEAD TIME

Approximately 6 weeks. Call for current lead times.

CHARACTER/GRADE

Infrequent to frequent fastener holes, insect holes, tight knots, or filled split knots, occasional staining/discoloration, and other signs of previous use. Holes over 1/8" are black epoxy-filled.

FLAME SPREAD

USDA FSI White Oak: 100 (class C)

PRODUCT SUITE

Flooring, Interior Cladding and custom applications. Inquire for details.

MINIMUM ORDER

250 square feet

Note: Wood is a natural substance and varies in appearance. Please refer to product images or request samples for a broader representation of the color and character of your selection.
